

## Top Savings Rates for Expats – April 2019

The rates shown (C) are gross, i.e. with no tax deducted at source, and are ranked by the amount of notice of withdrawal (A) one has to give the bank without it applying an interest penalty (or for the length of term, for fixed-rate accounts), and by the minimum amount (B) left on deposit to qualify for that level of interest.

Rates are subject to change. Rates on the no-notice and notice accounts are variable; those on fixed rate accounts apply throughout the term shown. Data collated on 2<sup>nd</sup> April 2019.
