

Top Savings Rates for Expats – May 2019

The rates shown (**C**) are gross, i.e. with no tax deducted at source, and are ranked by the amount of notice of withdrawal (**A**) one has to give the bank without it applying an interest penalty (or for the length of term, for fixed-rate accounts), and by the minimum amount (**B**) left on deposit to qualify for that level of interest.

Rates are subject to change. Rates on the no-notice and notice accounts are variable; those on fixed rate accounts apply throughout the term shown. Data collated on 7th May 2019.
